EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Quinley on 7 April 2005.

The application has been amended as follows:

In claim 10, line 10, replace "member" with --pad--.

REASONS FOR ALLOWANCE

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-9 are considered patentable because of the inclusion of the claim limitations, attaching at least one pad to a bottom surface of the spool cover, that is not taught by or suggested by the prior art of record.

Claims 10-19 are considered patentable because of the inclusion of the claim limitations, at least one pad disposed between a bottom surface of the spool cover and the seal sensing contacts, that is not taught by or suggested by the prior art of record.

Claim 20 is considered patentable because of the inclusion of the claim limitations, a bottom surface of the spool cover engages the at least one pad to force the seal sensing contacts to come in contact with the electrical trace, that is not taught by or suggested by the prior art of record.
